EDUCATION

UVCE

Master of Technology (Cyber Security) - CGPA - 8.88

2024 – 2026

Bengaluru

Global Academy of Technology

Bachelor of Engineering (Honours) - CGPA - 9.01

2020 – 2024

Bengaluru

EXPERIENCE

Textron India Pvt Ltd

Student Intern – Enterprise Security Team

Sept 2025 – Present

Bengaluru

- Worked on **Splunk SIEM** for log ingestion and server class creation.
- Automated IIS log fixes, Splunk UF upgrades, and Tenable agent operations using **Ansible**.
- Gained hands-on exposure to **Databricks**, **XSOAR**, **Signal Sciences**, **Tenable**, and **CyberArk**.
- Utilized **CMDB** data to identify and analyze decommissioned servers within the enterprise environment.
- Currently working on feature enhancements for **SCDash 2.0**.
- Familiar with enterprise security workflows and **Microsoft Azure** basics.

Maitra Medtech Pvt Ltd (incubated in IISc)

Software Developer Intern

Mar 2024 – April 2024

Bengaluru

- Developed a React-based healthcare application with Bluetooth integration, data caching, and synchronization with MongoDB over WiFi.

PROJECTS

Advanced Malware Detection using Hybrid Models | TensorFlow, LSTM, GRU, Streamlit

- Developed a hybrid **LSTM-GRU** based Android malware detection system achieving **93% accuracy** using over **250 static features** extracted from Android applications.
- Implemented both **static analysis** and **API-based testing** workflows with a **Streamlit** interface for real-time malware prediction and analysis.
- Integrated **XAI (Explainable AI)** techniques and orchestration methods to improve model interpretability, prediction transparency, and security analysis.

Digital Steganography | ReactJS, Tailwindcss, Cryptography

- Developed a secure image steganography system for hiding and extracting confidential messages within digital images using image processing techniques.
- Achieved **90%+ decoding accuracy** while maintaining minimal visual distortion in carrier images during encoding and decoding operations.

Network Intrusion Detection System | Python, Scikit-Learn, Pandas, Matplotlib

- Developed a machine learning-based intrusion detection system to classify network traffic into multiple attack categories including DOS, PROBE, R2L, U2R, and normal traffic.
- Implemented and evaluated multiple ML models including Random Forest, SVM, Decision Tree, AdaBoost, and MLP Classifier using Python and Scikit-Learn.

TECHNICAL SKILLS

Cybersecurity & Security Tools: Splunk (SIEM), Signal Sciences (WAF), Tenable (Vulnerability Management), CyberArk (PAM), Wireshark, Nmap, Autopsy, NetworkMiner, DumpIt, DiskDrill, ExifTool

Networking: OSI & TCP/IP Models, Ethernet, ARP, DHCP, ICMP, OSPF, RIP

Automation & DevOps: Ansible, Microsoft Azure (Basics)

Programming: Python, Java, C

Data Science & Machine Learning: NumPy, Pandas, Matplotlib, Scikit-Learn, TensorFlow, Keras, PyTorch, Databricks

Databases & API Tools: MySQL, MongoDB, PostgreSQL, Postman

CERTIFICATIONS

- Soft Computing a course certified by NPTEL
- Privacy and security in online social media certification from NPTEL
- Splunk Search Expert

PUBLICATIONS

Keerthana PM , “*Comparative Study of Various Optimizers and Transfer Learning Methods of Rice Leaf Disease Detection using CNN*”. Published paper on the comparative study of optimizers and transfer learning methods for rice leaf disease detection using Convolutional Neural Networks (CNNs). The study explores the effectiveness of different optimizers and transfer learning techniques in enhancing the accuracy and efficiency of disease detection models. Results provide valuable insights for improving agricultural disease detection systems, contributing to advancements in precision agriculture and food security.

ACTIVITIES

- **National Cadet Corps (2021–2024):** Actively participated in various training programs and community service initiatives as a dedicated NCC cadet. Held the position of *Lance Corporal*, demonstrating leadership and discipline in all assigned responsibilities.
- **NSS Volunteer:** Contributed to social awareness programs, community service, and outreach initiatives as part of the National Service Scheme (NSS), fostering civic responsibility and teamwork.
